

# Euro review games: quick-start

AP European History Review Board Collection · 90000579

Original ten-game collection

## 1 • Unpack twice

Save and extract the collection ZIP: Windows → right-click → Extract All; Mac → double-click. Open AP European History, choose a game ZIP and extract it into its own folder. Keep games separate because companion filenames repeat.

## 2 • Find the six files

Each game has a Review Board PPTX and PDF, How to Run This Review Game in DOCX/PDF, and Team Score Sheet in DOCX/PDF. PPTX is the editable game; PDFs are fixed-page view/print copies; DOCX is editable companion text. Supplied PDFs do not update after PPTX/DOCX edits. Review pages and any links in a new PDF export.

## 3 • Rehearse the game

Read the directions. Open a working copy of the PPTX. In Windows PowerPoint: Slide Show → From Beginning. On Mac: Slide Show → Play from Start. Try a board value, answer reveal, return, another category and Final Round. Edit text in place; preserve slide order and navigation buttons. Then save, close, reopen and retest.

## 4 • Print and score manually

Decide and explain your scoring rule before the first clue. For a paper tally, open Team Score Sheet.pdf. Select needed pages and copies, then check the print preview for a complete, readable table. Or use your own tally. Mark played clues yourself; the download has no automatic scoring or used-tile marking. The free browser preview is separate; its scores do not transfer to these files.

## 5 • Check your app and permissions

No app/version is certified for these files by playback/edit/save/reopen tests. Software is not included. Conversion can change layout or navigation: use a copy and rehearse on your actual device/display. Editable files do not establish sharing permissions; ask about your intended use.

## 6 • Recover purchase access

Use the confirmation-page or delivery-email access instructions; check spam/junk. If access fails, email the product title, order reference if available and failing step. For file problems add extension and app/version. If payment is uncertain, ask before purchasing again.

For larger text, try [themacslarningco.com/help/ap-european-history-review-boards/](https://themacslarningco.com/help/ap-european-history-review-boards/) with browser zoom. If your screen reader supports heading navigation, use the HTML page headings. Keyboard and screen-reader behavior of the help and game files has not been verified.

Please leave out passwords, payment-card details, complete download links, student work, and private school or family information.
